

Quercetin UltraSorb

With bioavailable Quercetin Phytosome™ (QuerceFit®); enhanced-absorption cellular, immune and cardiovascular support†

INDICATIONS

- Ages 18 and up
- Supports healthy immune function and cellular health†

BENEFITS

- Supports healthy mast cell stabilization and immune health†
- Highly bioactive flavonoid offers antioxidant support for cellular health†

FEATURES

- Provides 300 mg of bioavailable Quercetin Phytosome™ (QuerceFit®)
- Enhanced-absorption and bioavailable quercetin

VERIFIABLE SCIENCE

Quercetin UltraSorb contains the patented QuerceFit® quercetin-phospholipid complex for enhanced absorption and bioavailability. The proprietary phytosome technology combines quercetin from *Sophora japonica* flower extract and phospholipids from sunflower in a 1:1 ratio, promoting resistance to degradation in the digestive tract and efficient absorption across membranes. A randomized crossover human pharmacokinetic study compared QuerceFit® with regular quercetin and found the phytosome improved the bioavailability of quercetin by 20-fold.¹ Quercetin is a polyphenolic flavonoid known to exhibit cellular and immune-moderating activity. Research suggests that quercetin acts as a SIRT1 inducer to promote cellular regulation and autophagy, the natural process of degradation and recycling of cellular components to promote renewal.^{2,3} It also increases the body's antioxidant capacity in part by regulating levels of glutathione.^{4,5} In a pilot trial involving adults, supplementation for 30 days with 250 mg or 500 mg bioavailable Quercetin Phytosome™ (QuerceFit®) supported antioxidant defenses and helped support respiratory function and nasal comfort.⁶ Preliminary research suggests that quercetin helps to stabilize mast cells and moderate the release of immune mediators.^{7-9†}

SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-2 times daily, with meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- Quercetin is derived from Japanese pagoda tree (*Sophora japonica*) flower
- Phytosome phospholipids are sourced from sunflower
- Hypoallergenic plant fiber is derived from pine cellulose
- Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil

NOTES

Size 0 cap

Bottle count 90

Order codes QUS9

Bottle size 190 cc

Quercetin UltraSorb

With bioavailable Quercetin Phytosome™ (QuerceFit®); enhanced-absorption cellular, immune and cardiovascular support‡

SUPPLEMENT FACTS

1 capsule, 1-2 times daily, with meals.

One (size 0) vegetarian capsule contains:

Quercetin Phytosome™ (Quercefit®) (Quercetin and sunflower phospholipid complex) (standardized to contain 34% quercetin)	300 mg
--	--------

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water), ascorbyl palmitate

Quercefit® and Phytosome™ are trademarks of Indena S.p.A., Italy.
