

SOF Wellness Locker, LLC
Operations & Leadership

We honor our corporate motto, "*Strengthen Your Warrior Immunity*", when we :

- empower Elite Warfare Professionals with special direct access to the highest-purity Professional Physician-grade, Science-based Nutritional Health Supplements at preferred reduced pricing; shipped straight from the product facility directly to SOF Operators/Aviators and their Dependent Family;

-AND-

- support the existing wellness protocols being practiced by the SOF Warrior as directed by their military medical treatment providers & training advisors; to further enhance success of the SOF mission, force & family.

At SOF Wellness Locker we serve only military "SOF"...
members of Special Operations Forces :
Operators/Aviators and their Dependent Family from the SOF components of
MARSOC, NAVSOC, USASOC, AFSOC, JSOS & USSOCOM.

We understand & believe that SOF Operators & Aviators are "Elite Warfare Professionals" :
well-educated/highly-trained Warrior assets of superior strength & performance;
providing unique critical skillsets within an environment of extreme stress;
uniquely disciplined & trained to make intelligent , quick-assessment, sound choices;
possessing qualities equal to the finest MVP athletes in all of professional sports;
accordingly, most deserving of similar respect & considerations.

SOF Wellness Locker, LLC. and it's related entities embrace truths that are
critical to the success of any mission ... that leadership must possess an "experiential
understanding" of the realities faced by the forces being directed.

Thus our leadership is much like a tempered-tool taken from the refiner's fire of a foundry
being hammered-out/forged on an anvil of adversity for special use.

Our Professional Physician-Specialists use a term "Oxidative Stress" that applies to a
gradual accumulation of underlying adverse health issues afflicting the body & mind;
that "oxidative stress" is ever-present w/in the "Special Operations" environment;
so prevalent w/in SOF that we often use the saying : "SO " is "OS".
