

Supply & Logistics

The need for SOF Wellness Locker was born in March 2020 during Covid 19 from government shutdowns/mandates/restrictions that created consolidation & control over all healthcare delivery systems; such sudden radical change rapidly impaired the existing supply chain threatening access, availability, pricing & quality for vital medical wellness-care items.

Unlike civilian workforce, the military community of SOF Operators / Aviators and their Dependent Families were unable to "shutdown" because of honoring their vigilant duty to the SOF mission, force & family. We saw immediate need to strengthen the supply chain to further support and enhance the Elite Warrior's delicate balance for success.

If "A Chain is Only As Strong As It's Weakest Link", then we removed weak links to shorten our medical wellness supply chain for strength using stronger direct connections; SOF Wellness Locker created a program direct with Atrium Professional Brands to solely empower Elite Warfare Professionals with special access to Professional M.D./Physician-grade, Science-based Nutritional Health Supplements of the highest purity & potency; exclusively for SOF Operators / Aviators and their Dependent Family only; direct from the lab facility to the SOF community at preferred reduced pricing.

Atrium Professional Brands/Nestle' Health Science is a worldwide leader in science-based nutrition; SOF Wellness Locker is proud to showcase their Professional M.D./Physician-grade brands to include Pure Encapsulations, Douglas Laboratories and Klean Athlete.

Pure Encapsulations is the #1 recommended brand in the U.S. medical practitioner market, with highest rankings in quality & trust.

Their Klean Athlete brand is "NSF Certified for Sport" by the National Sports Foundation.

U.S.-based Atrium Innovations/Atrium Pro Brands operate their research, development, manufacturing and distribution for all products proudly within the U.S.A. from their HQ facilities located in the states of Massachusetts and Pennsylvania.
